

# Sustainable Settings

The what, who, where, why and how

---

## WHAT

*Sustainable Settings* is an initiative by *Women of the Wild* that allows community members to borrow packs of reusable tableware instead of using disposable plates, cups, and utensils.

## WHO

*Sustainable Settings* is for anyone who is interested in reducing the amount of trash we are adding to landfills!

## WHERE

**Birthday parties, backyard get-togethers, small holiday parties, church meetings, book clubs, board meetings,** etc. Basically, any event where you would have purchased disposables is an option for *Sustainable Settings*!

## WHY

The average American produces 4.4 pounds of trash per day! All that waste ends up in a landfill. Replacing disposables at events with reusable ware is one way to reduce trash.

## HOW

1. Visit <https://tinyurl.com/wowsustainablesettingsrequest> to request a pack.
2. We'll let you know if one is available and arrange pick-up and drop-off times (pick-up and drop-off occur at Brevard Zoo).
3. *Sustainable Settings* requires a refundable deposit paid in advance online.
4. Use the pack at your event, return it to us washed or thoroughly rinsed and dry, and then brag to your friends how you are helping to reduce trash one plate at a time!

**Questions?** Email [sustainablesettings@brevardzoo.org](mailto:sustainablesettings@brevardzoo.org)
