

Sustainable Settings

What's in your pack?

PLATES

You have **two sizes of plates, 12 of each**. They are made from bamboo fiber and are eco-friendly. They can be washed in your dishwasher.

CUPS

You have **12 cups** made of BPA-free plastic. They are dishwasher safe.

UTENSILS

You have a set of **12 knives, spoons, and forks**.

TIPS

Sustainable Settings also includes a **tip sheet** for creating a low impact event, **labels for waste station sorting** so your guests know what goes where (utensils, tableware, recycle, compost, landfill, and cloth napkins), and **flyers** so your guests can use *Sustainable Settings* for their next event!

Wait! You're probably thinking "Why doesn't *Sustainable Settings* provide napkins?" At this time, *Sustainable Settings* does not have a way to wash cloth napkins and did not want to require you to wash them.
