

# Career Expedition

Grade Levels: 7th and up

Time: 60 minutes

Working in and around the Zoo can be a rewarding experience. From Animal Care professionals to Horticulture, they all play an important role to ensure the wellbeing of the animals.

## Florida Standards:

SS.8.FL.1.1, SS.8.FL.1.2,  
SS.912.FL.2.1, SS.912.FL.2.3

## Science Practices Utilized:

Raise questions investigate through exploration and observation, and generate explanations.

## Program Expectations:

This program will be modified to meet your grade level expectations.

This program is an outdoor staff-led exploration. The program will not be available during March or April.

**Concept:** *Animal husbandry, Training, and Veterinary Care in Zoos.*

**Objectives:** *Students will learn a variety of careers existing within and outside of the Zoo community. Every job has a purpose and every purpose is important. Many zoos are non-profit organizations that rely on community support and non-animal professionals to ensure we operate in a financially sustainable manner.*
