

**Program Information**

	VPK	K	1	2	3	4	5	6	7	8	9	10	11	12
<b>Wiggly Wonders</b> <b>Time: 30 Minutes</b> Can you swim like a fish? Slither like a snake? Jump like a frog? Students will explore animal movement as they hop, crawl and wiggle their way through this fun, hands-on animal experience.	X	X												
<b>Fur, Feathers, Shells, and Scales</b> <b>Time: 30 Minutes (VPK &amp; K) 45 Minutes (1st &amp; 2nd)</b> Explore the crazy world of animal coverings, coats, skins, and more. Learning comes to life as students discover the difference between reptiles, fish, birds, amphibians, and mammals.	X	X	X	X										
<b>Florida Expedition</b> <b>Time: 30 Minutes (K) 45 Minutes (1st &amp; 2nd)</b> From swamp and wetlands to forests and scrubs, students learn Florida habitats are home to many animals. We will take students into the Florida exhibit and with careful observations, investigate animals and their exceptional features.		X	X	X										
<b>World Safari</b> <b>Time: 45 Minutes</b> Take a trip around the world while never leaving the zoo! In this program, students will dive into native and exotic lands, while meeting some of their extraordinary inhabitants.			X	X	X	X	X	X	X	X				
<b>Web of Life</b> <b>Time: 45 Minutes</b> Living things in every habitat need energy to live and grow. Where does this energy come from? From predator to prey, students will learn how animals are connected and depend upon each other and their environment to survive.				X	X	X	X	X	X					
<b>Amazing Adaptations</b> <b>Time: 45 Minutes</b> Is it survival of the fittest or just a quirk of nature? Students will discover the adaptations needed to escape hungry predators, become ultimate hunters or survive and thrive in the harshest climates.				X	X	X	X	X	X	X	X	X	X	X
<b>Wetlands Exploration</b> <b>Time: 45 Minutes</b> Discover the Brevard Zoo's diverse wetlands and wild animals. Students become familiar with animals they might find in their own back yard and the importance of the wetlands.					X	X	X	X	X	X				
<b>Classification Investigation</b> <b>Time: 45 Minutes</b> Students will discover how scientists group or classify vertebrates based on their physical and behavioral characteristics. With this hands-on experience, they will be able to identify the five vertebrate classes: mammals, reptiles, amphibians, fish, and birds.					X	X	X	X						
<b>Conservation: Brevard Zoo and You</b> <b>Time: 45 Minutes</b> Wildlife all over the world encounter survival challenges from habitat loss, pollution, introduced species, human interaction and more. Your students will participate in a conservation-based activity and learn what they can do at home to make a positive impact on the ecosystem.						X	X	X	X	X	X	X	X	X
<b>Career Connections</b> <b>Time: 45 Minutes</b> Do you want to make a difference for animals and the environment? What are the career choices available at a zoo? This hands-on learning experience gives a brief overview of the necessary skills, training and education needed to find a career path within a zoo.									X	X	X	X	X	X
